Conference: Spring World 2010

Dates: March 21-24, 2010

Location: Disney Coronado Springs Resort, Orlando Florida

Disaster Recovery Journal, host and sponsor Spring World 1010 invites you to nominate a speaker and/or topic for our conference. Our conference focuses on all aspects of business continuity planning and is the most comprehensive offered in the industry. Some 1800+ people from countries worldwide will be attending this conference and viewing our extensive exhibit hall.

Location

Spring World 2010 will be held at Disney's Coronado Springs Resort in Orlando, Florida, March 21-24, 2010. The hotel is a spacious resort area featuring nearly 2000 rooms arranged in three themed villages. Expansive meeting areas and ballrooms make this the perfect location for our conference.

Conference Format

The conference begins Sunday afternoon and continues through Wednesday afternoon. Workshop sessions (2.5 - 3 hours in length) are held on Sunday and Tuesday afternoon. General Sessions (1 hour in length) are held on Monday, Tuesday and Wednesday morning. Breakout sessions (1 hour in length) are held on Monday and Tuesday afternoon in six different tracks: Strategic, Managerial; Technical; Emergency Response; Advanced and Informational.

General session topics are presented to all attendees and should have a broad appeal. Workshop sessions are usually an in-depth study of a particular business continuity issue, problem or solution. These sessions are not lectures. Instead they should feature interactive activities, such as hands-on scenarios, role playing, etc. Breakout sessions are geared toward smaller audiences and the subjects can be smaller in scale. Breakout and workshop sessions are offered for three levels: advanced, intermediate, and novice, or a combination of levels. Novice is appropriate for those in the industry less than 2 years; intermediate is geared toward those in the industry 2 – 5 years; and advanced is for those in the industry more than 5 years.
