APRIL GENERAL MEETING ANNOUNCEMENT

**Thursday, April 21, 2005
3:00 pm – 5:00 pm**

Subject: Risk Management Practices from an Insurance Point of View

We'll be discussing how to fund parts of a BCP program through insurance, and how the BCP program may affect your overall risk factors for determination of premiums. We also will discuss how an effective BCP program should be structured according to industry standards, where BCP regulatory efforts are heading,

Fred Klapetzky, Vice President
Marsh McLennon Companies

Fred is the Midwest Region BCP Practice Leader responsible for working with Marsh global resources to develop and deliver business continuity management solutions to clients.

Fred has been working in information systems design, operations, and disaster recovery/business continuity since 1981. Prior to joining Marsh, Fred was principal and founder of Business Resilience Consulting. Fred was also a Senior Manager at Ernst & Young, where he was the Midwest Area leader for Ernst & Young's Recover Practice.

Fred has performed technology and business continuity assessments/evaluations for Financial Services, Manufacturing, Insurance, Health Care, Publishing, Retail, Telecommunications, and e-commerce clients. He designed and tested continuity plans for each of those clients as well. He was the project manager in several data-center redesign activities to provide increased scalability, improved system availability, and improved operations.

Fred has developed and presented high-availability design courses at the Disaster Recovery Journal trade shows and was the principal author for Ernst & Young's response to the Draft Federal White Paper on Business Resiliency.
